## ROCK BRITANNIA!

- **Subjects: Music, News, Entertainment, Lifestyle, Fashion, Culture, Sport**
- **Running Time: 50 x 60min**
- **Features: Specially written script, Voice-over, Pre-cleared material**

Rock Britannia! takes a sideways look at the headline makers, the trend setters and the go-getters who put the 'Great' into Great Britain. We dedicate one episode to each year and showcase the best (and, occasionally, worst) of Britain and the world from over fifty years of BBC News and programming. Our exclusive archive footage is framed by pop hits and misses that have defined the decades.

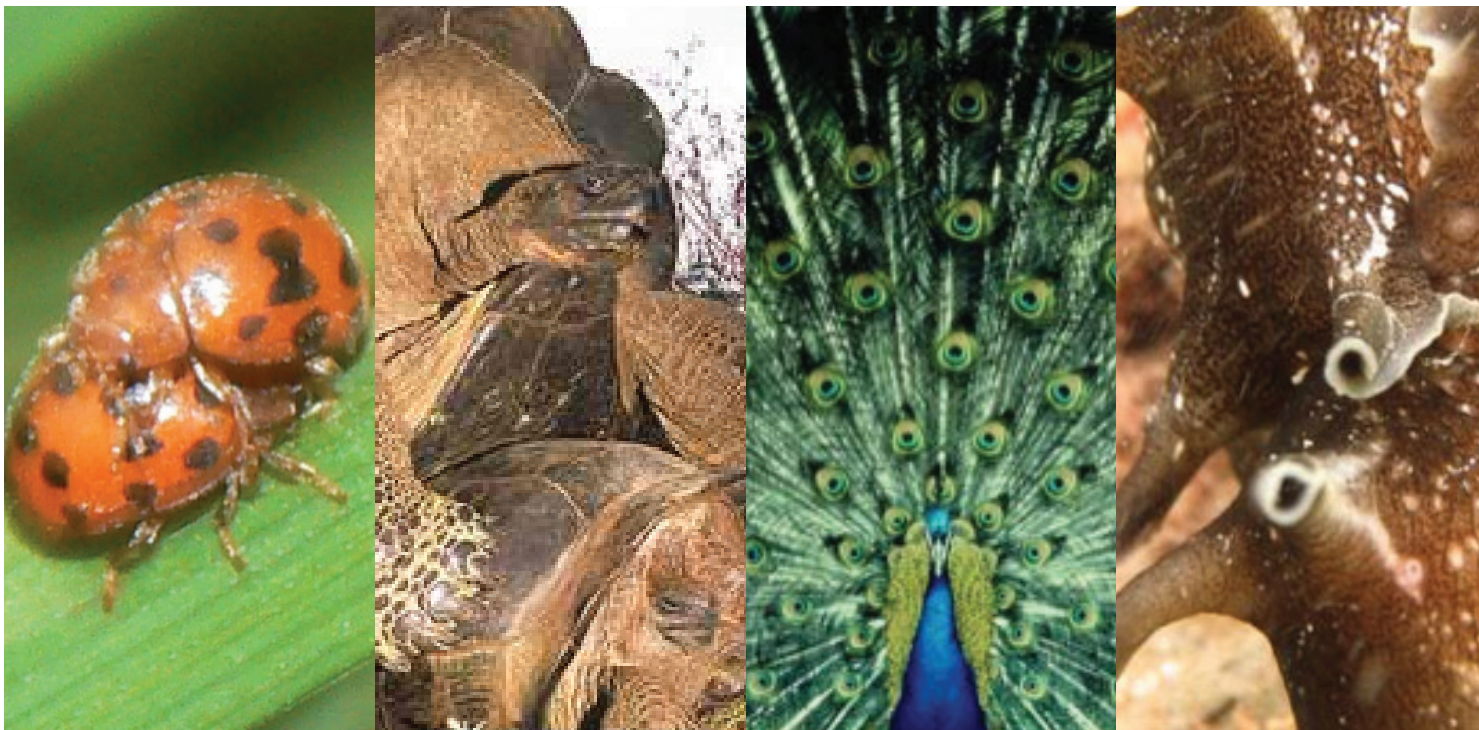

The series stretches from the Sixties up to the Noughties. We discover how we lived then and how we live now through a series of iconic moments that promise to be memory jogging, thought provoking and provide an abundance of guilty pleasures!

- **Music: biggest hits, cheesy tunes inc live performances and music video**
- **News: British, American and international**
- **Entertainment: Film, Television drama, theatre, music**

- **Culture: Fashion, Journalism, Publishing; Architecture**
- **Science and Technology: Cars, telecommunications; inventions**
- **Funnies: Quirky stories, political bloopers, record breakers**
- **Music tracks – In-vision and audio**
- **Voice-over by an icon of the decade**
- **Newspaper headlines and captions**
- **Highlights from BBC drama and comedy series**
- **Location, studio and interview footage**
- **'Pop-Up' factoids including stats and "Did you Know?" Q&A**

A pilot episode of Rock Britannia! Covering 1988 is available for your viewing pleasure. We are happy to discuss your particular broadcast and viewer needs and cater the series to meet your demands

## POISONOUS PLANET

- **Subjects:** Natural History/ Science/ Education
- **Running Time:** 6 x 30
- **Features:** Specially written script, Voice-over, Pre-cleared material, Rare location footage, groundbreaking camerawork from the BBC.

We are often led to believe that humans are poisoning the planet. However Mother Nature has a poisonous and killer nature herself. In this series we examine the toxic nature of the planet visiting the places that no one dares to travel, confront creatures loaded with venom and contact plants and viruses whose very touch can kill. Episodes will include:

- **Killer Bugs:** Plagues, epidemics, infectious diseases, natural poisons
- **Feeders:** Parasitic animals which slowly feed on others: bed bugs, vampire bats
- **Danger Zones:** Dead seas, salt lakes, ocean vents, extreme climates
- **Venom:** The biggest threat to humans: Snakes, spiders, scorpions...
- **Forbidden Fruit:** Carnivorous flowers, poisonous fungi, killer fruit, parasitic plants
- **Invaders:** Discovering how invasive species have exterminated indigenous species

The above episodes will link footage using a variety of means including

Script bursting with blood-churning and horrifying information, facts and figures. Specially composed music and sound effects to scare you out of your seats; Spine-tingling footage which is still suitable for family audiences.
